KaVo EXPERTmatic handpieces and contra-angles

KaVo EXPERTmatic LUX E25 L / E25 C

- High-speed attachments, transmission ratio 1:5
- Fast and precise work is possible using an small head, snap-in nose and ceramic ball bearings
- Maximum reliability through internal spray media and replaceable water filter
- E25 L with glass rod light conductor (25,000 LUX), E25 C without light

Special EXPERTmatic features:

- EXPERTgrip surface for effective gripping
- Exchangeable water filter for consistently good spray
- Light output up to 25,000 lux
- Chuck retention force of up to 30 N
- Carbide guide bushing for perfect drill concentricity
- Original KaVo ceramic ball bearing
- 18-month warranty
- Made in Germany

KaVo EXPERTmatic LUX E20 L / E20 C

- Transmission ratio 1:1
- Easy access due to a small head
- Efficient design with single spray and internal spray media
- E20 L with glass rod light conductor, E20 C without light

KaVo EXPERTmatic LUX E15 L / E15 C

- Reduction 5.4:1
- Easy access due to a small head
- Efficient design with single spray and internal spray media
- E15 L with glass rod light conductor, E15 C without light

KaVo EXPERTmatic E10 C

- Handpiece, transmission ratio 1:1
- Efficient design with single spray and internal spray media
- Suitable for handpiece and contra-angle drill

KaVo EXPERTmatic E31 C

- Polishing contra-angle reduction 5.4:1
- Multiple seals protect against ingress of polishing paste
- With thread and insert
- For screw-in and snap-on cup

KaVo EXPERTmatic E61 C

- EVA-PROPHY contra-angle
- Ideal for polishing interdental spaces, etc.
- 36 lock settings for precise locking of files
